WHAT IS SMART CITY ?

S	**Safe & Secure**
M	**Mobility**
A	**Art & Culture**
R	**Reduce & Reuse**
T	**Technology Advancement**
C	**Citizen engagement**
I	**Infrastructure (Physical & Social)**
T	**Tourism**
Y	**Yes to Sustainability**

TECHNICALLY ADVANCED & HUMANIZED CITES

# "Smart cities are a process rather than a static outcome"
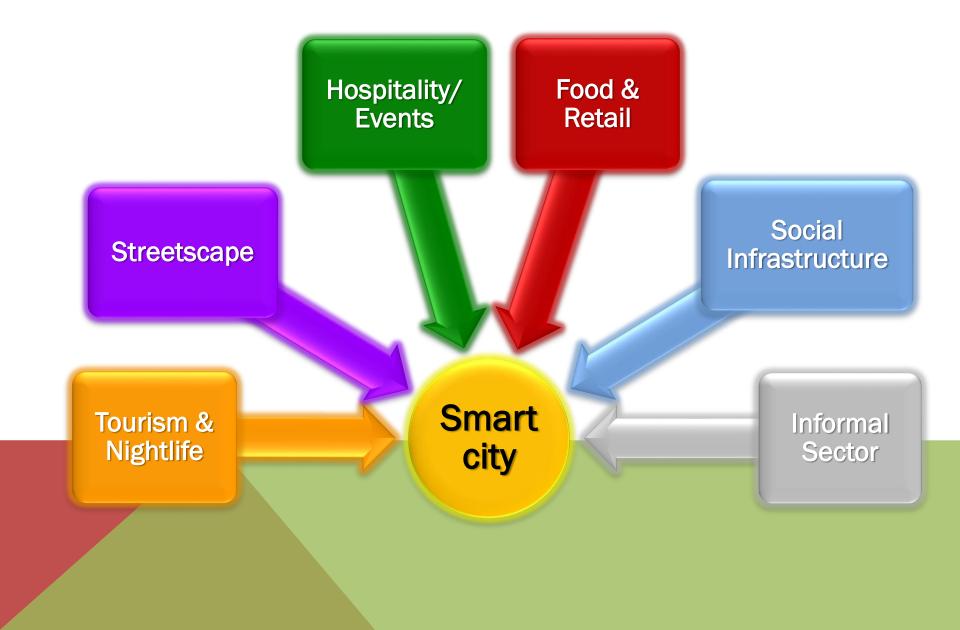

CITIES IDENTIFIED AS FUTURE SMART CITIES

Includes both Greenfield and Brownfield Projects

Cities have major scope for macro and micro level planning interventions in physical and social fabric

Development requires union of various professionals to sketch the way forward

HUMANIZATION

WHAT IS TO BE DONE ?

'Smart cities are a process rather than a static outcome.'

1. Safe & Secure - Make the city Safe & Secure for citizens
2. Introduce rapid and mass mobility conflict free options
3. Make the city energy efficient
4. Promote Culture, Heritage, Tourism and Night life
5. Incorporate new technology advancements in running the city
6. Improve the Physical Infrastructure to achieve zero discharge & Increase the Social Infrastructure
7. Make formal space for Informal Sector
8. Make the city Pedestrian Friendly
9. People's involvement

THANKS.............
